

Cambridge Polymer Group is pleased to announce that it is now certified as an ISO 9001:2008 compliant organization by International Certifications Ltd.

To become certified as ISO 9001:2008 compliant, Cambridge Polymer Group underwent an evaluation process that included quality management system development, a management system documentation review, pre-audit, and initial assessment, all of which work to comply with the quality management standard.

This certification further demonstrates our on-going commitment to our customer as we continuously strive to understand our customer's needs and to offer products and services that meet or exceed their expectations. Our quality policy is an integral part of our strategy of being recognized as the premier contract research organization in North America offering a full range of contract research services, excellent technical support and innovative products, and to continuously improve and evolve our offerings to more effectively meet the demands of our customers.

Cambridge Polymer Group is certified as meeting the requirements of ISO 9001:2008 for the following activities:

Contract Research and Analytical Testing Laboratory
Design and Manufacturer of Custom Materials
Design and Manufacturer of Custom Instrumentation

We believe our decision to become ISO 9001 Certified is a proactive one that not only anticipates the demands of our clients, but also demonstrates our commitment to providing quality services to all our clients.

Stephen Spiegelberg	President
Gavin Braithwaite	Vice President Research
Mary Oswald	Quality Manager

Cambridge Polymer Group, Inc. is a contract research laboratory specializing in polymeric materials. We provide routine analytical testing on materials, custom test design, failure analysis, consultation, instrumentation, custom polymer and hydrogel formulation, and out-sourced research.
